OBJECTIVE

B. Tech (AI & DS) student aiming to leverage strong programming skills in Java and web technologies to contribute to full stack development projects, while growing as a competent and responsible software professional.

EDUCATION

GREATER NOIDA INSTITUTE OF TECHNOLOGY (GNIOT), AKTU — **OCT 2022 - JULY 2026**
B. TECH IN COMPUTER SCIENCE & ENGINEERING - **SGPA: 7.61/10** — Greater Noida, India

SHRI G S I COLLEGE, FIROZABAD — **APRIL 2021 - JULY 2022**
SCIENCE, SENIOR SECONDARY EXAMINATION (CLASS XII) - **PERCENTAGE: 76.6%** — Firozabad, India

SHRI G S I COLLEGE, FIROZABAD — **APRIL 2019 - JULY 2020**
SECONDARY EXAMINATION (CLASS X) - **PERCENTAGE: 87%** — Firozabad, India

TECHNICAL SKILLS

Languages: Java (Core & Advance), C, C++

Frontend: HTML, CSS, JavaScript, Bootstrap, React.JS

Backend/Frameworks: Node.JS, Express.JS, REST API

Testing/Debugging: Postman, Hoppscotch

Databases tools: MySQL, MongoDB

Developer Tools: VS Code, Google Collab, Eclipse-Java
Version Control System: Git, GitHub
Interpersonal Skills: Team Management, Analytical Skill, Communication

KEY CONCEPTS

- Data Structures & Algorithms
- Object Oriented Programming
- Operating System
- Computer Organization & Architecture
- Java Full Stack (**Ongoing**)

PROJECTS

- ***WandarLust | Node.js, Express.js, MongoDB, EJS, CSS*** — **GitHub | Live**
  - *Developed a Full-stack application for property listing and booking inspired by Airbnb.*
  - *Implemented CRUD operations with MongoDB and Mongoose for managing listings, users and reviews.*
  - *Integrated authentication, authorization and dynamics EJS templates for seamless user experience.*

- ***Stock Trading Platform| Node.js, Express.js, MongoDB, EJS, CSS, Bootstrap***
  - *Built a stock trading platform (Zerodha-like) using Node.js, Express.js, MongoDB, and EJS with secure user authentication.*
  - *Implemented live market data display, order placement flow, and user portfolio management.*
  - *Designed a responsive, clean UI using CSS & Bootstrap, optimized for performance and scalability.*

- ***Weather Application | React.js, OpenWeather API***
  - *Built a responsive weather forecast webapp using React.JS and real time API integration.*
  - *Implemented Dynamic search to display live temperature, humidity and conditions for any city.*
  - *Utilized React hooks and state management for efficient UI update and smooth user experience.*

CERTIFICATIONS

- **E & ICT Academy, IIT Kanpur, C & C++ Programming: Sept 2024 – Dec 2024 | Credential Link**
- **E & ICT Academy, IIT Kanpur, Data Structure & Algorithms Feb 2025 – July 2025 | Credential Link**
- **Generative AI for All – Infosys Springboard: June 2025 | Credential Link**
